ravibhai213@gmail.com

Highly skilled and dedicated React.js Developer with 1 years of experience in designing and developing dynamic web applications. Committed to delivering robust and user-friendly solutions, leveraging proficiency in React.js , JavaScript, and related technologies. Seeking a challenging role where I can contribute my expertise and collaborate with a talented team to build innovative software products.

Experience

MEDIQUITY TECHNOLOGY PVT. LTD BHOPAL - React JS Developer

Feb-2023 to till now

- Developed and maintained responsive single-page applications (SPAs) using React.js, Redux, and other modern web technologies.
- Collaborated with cross-functional teams to gather requirements and translate design mockups into functional components.
- Implemented and maintained state management using Redux, ensuring efficient data flow and seamless user experiences.
- Optimized application performance by identifying and resolving performance bottlenecks through code refactoring and profiling.
- Conducted code reviews to maintain code quality and adhere to best practices.
- Worked closely with UI/UX designers to implement pixel-perfect user interfaces and ensure consistent branding.
- Integrated RESTful APIs and third-party libraries to enhance application functionality.
- Actively participated in agile development processes, including sprint planning, daily stand-ups, and retrospectives.
- Assisted in mentoring and providing guidance to junior developers, fostering a collaborative and knowledge-sharing environment.

Projects

Project Title – Hotel Management

- Technologies:- HTML , CSS, Javascript, React, PHP(Backend)
- Database:- MySql
- Contribution:- Employee Module
- TeamSize:- 7
- Description:- A hotel management app automates hotel tasks, integrates functions like reservations, guest management billing, and reporting. It enhances efficiency, guests experiences, and overall productivity for hotel staffs.

Project Title:-Blood Bank

- Technologies:- React JS (FrontEnd), Java (BackEnd)
- Database:- MySql
- Contribution:- Donor Module, Examination Module, Storage Module, Discard Module, Patient Module, Request Module, Issue Module, Camp Module, Master Module.
- TeamSize:- 11
- Description:- A blood bank app streamlines operations, manages blood inventory, donor info, and transfusion processes. It facilitates coordination, blood supply, and patient care for blood bank staff, donors, and medical professionals.

Skills

- Proficient in *React.js*, *Redux*, and related libraries/frameworks.
- Strong knowledge of *JavaScript*, *HTML5*, and *CSS3*.
- Experience with front-end development tools such as *Babel*, and *NPM*.
- Familiarity with modern JavaScript frameworks in backend technologies (*Node.JS*, *Express*).
- Solid understanding of responsive design principles and cross-browser compatibility
- Ability to write clean, modular, and reusable code.
- Experience with version control systems (Git) and agile development methodologies.
- Strong problem-solving and debugging skills.
- Excellent communication and collaboration abilities.

Education

- Bachelor of Engineering: Information technology, Technocrats Institute of Technology –Bhopal
